Time Collection

5113 Solenna™

On the warmer side of the palette, the bone white base of Solenna™ features prominent veining in raw umber, amber and putty grey. The sweep of veins is random and varying in intensity, bringing added depth to the slab. Available in a Polished finish.

5140 Dreamy Carrara™

Inspired by the classic pure white of Carrara marble, Dreamy Carrara™ features a silky white, light-reflective base overlaid with a subtle, irregular tracery of fine veins in earthy greys. Occasional, slightly darker veins, varying in intensity, bring dynamic movement to the overall slab. Available in a Honed finish.

5310 Brillianza™

Featuring a luminous, quartzite translucency, Brillianza™ is a complex pastiche of frothy white veins and powder-peach mineral accents atop a lustrous cool grey base. Its natural lustre creates a visual intrigue that changes throughout the day, depending on the light. Available in a Polished finish.
